

SM65154

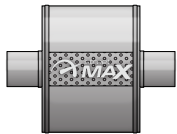

### Description:

The all-new Street Max Shortie provides the best of both worlds! Improved sound control in a compact profile case design. Measuring only 7.0" in body length, the Street Max Shortie enables you to position it in the optimal location of any undercarriage. The unique compact body structure lends itself to be used inline as a resonator prior to any existing muffler for maximum sound control. Or, you can also run it as a standalone unit if you're seeking an all-out aggressive tone. The internal straight-through design provides maximum performance gains while absorbing the high-pitched sound frequencies, delivering a deep performance tone with a moderate interior sound level.

Fully constructed from 16 gauge 409-grade stainless steel and backed by a 3-year limited warranty. Available in various pipe diameters and configurations in order to accommodate various style gas-powered vehicles. Whether it's a lighter displacement sport compact import or a domestic V8 application, the Street Max Shortie is the perfect solution!

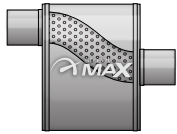

### Features:

- Compact 7.0" Body
- 16 Gauge 409-Grade Stainless Steel Construction
- 3 Year Limited Warranty
- Perfect for Street & Strip Applications
- Hybrid Muffler/Resonator Design
- Available in Multiple Diameters & Configurations
- Straight-Through Design
